## **DETAILED ACTION**

1. This office action is in response to the request for consideration filed on January 19, 2005 in which claims 1-22 are presented for further examination.

### ***Allowable Subject Matter***

2. Claims 1-22 are allowable over in light of the Applicants arguments and in light of the prior art made of record.

### ***Reasons for Indicating Allowable Subject Matter***

3. The following is an examiner's statement of reasons for allowance: Upon searching a variety of databases, the examiner respectfully submits that "a determination of a match between partial data inputs to complete prestored entries, determination of errors based on an evaluation of formatting of said data input, and determination of errors based on an evaluation of multiple data inputs to rules based logic; upon recognition of a correlation, said processing element selecting a specific sound pattern representative of said event; and a sound source reproducing said specific sound pattern" in conjunction with all other limitations of the dependent and independent claims, are not taught nor suggested by the prior art of record (PTO-1449 and 892,). Therefore, all pending claims 1-22 is hereby allowed.

Since allowable subject matter has been indicated, applicant is encouraged to submit formal drawings in response to this Office action. The early submission of formal drawings will permit the Office to review the drawings for acceptability and to resolve any informalities remaining therein before the application is passed to issue. This will

avoid possible delays in the issue process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for allowance."
